1. What this Product Is
Contract Engine: Oil & Gas Edition is a web-based software tool for Landmen, legal consultants, Contracts & Procurement professionals, and energy industry users. The App uses Artificial Intelligence (AI) powered by OpenAI to analyze Oil & Gas agreements (leases, drilling contracts, MSAs) and provide structured risk assessments, vendor intelligence, and negotiation insights. Access is unlocked through a license key purchased via Gumroad.

2. Data We Handle
• Uploaded Contracts: Processed in-memory only; Zero-Retention Policy applies.
• License Keys: Processed solely for access verification.
• Purchase Metadata (via Gumroad): email, purchase date, license key; no financial details shared with us.
• Vendor Names: May be sent to Google Search APIs for sanctions and adverse media checks.

3. When Data Leaves the App (Third-Party Processors)
• OpenAI (AI provider): Contract text is transmitted for analysis. OpenAI does not train public models on submitted data.
• Gumroad (payments & licensing): License key and product ID are sent for validation.
• Google Search API: Vendor / counterparty names may be sent to retrieve public risk information.

4. How We Use Data
• Deliver requested analysis (Risk, Vendor Intelligence, Negotiation Coach, Executive Insights).
• Verify license validity and prevent fraud.
• Maintain reliability, security, and performance of the Service.

5. Legal Bases (EU / UK GDPR)
• Performance of a Contract — required to provide the Service.
• Legitimate Interests — fraud prevention, service security, usage integrity.
• Legal Obligations — maintaining purchase records.

6. Retention
• Contract Data: Deleted immediately after analysis is returned to your browser.
• License Logs: Temporary logs only for fraud/security purposes.
• Purchase Records: Retained within Gumroad for accounting and tax compliance.

7. Security Measures
• All traffic encrypted via HTTPS (TLS).
• Ephemeral processing environments (e.g., Render) prevent long-term retention.
• No user-uploaded documents stored in any database.

8. Your Choices & Rights
• You may redact sensitive portions of contracts before upload.
• We cannot delete contract data post-processing because we never store it.
• GDPR/UK GDPR rights apply where relevant (access, correction, restriction, objection).

9. International Transfers
Your data may be processed in the United States or other regions by OpenAI, Render, and Gumroad using standard contractual safeguards.

10. Changes to This Policy
We may update this Policy periodically. Continued use after changes implies acceptance.

11. Contact
sales@jiculimited.com

Scope Note: This Policy applies ONLY to Contract Engine. Payment data is governed by Gumroad's policies.
